26 May 1961

MEMORANDUM FOR: Special Assistant, AD/CR

SUBJECT : Comments on [REDACTED] Proposal 25X1A9a

REFERENCE : Chief, DD/I Automation Staff Memorandum to DD/I
dated 21 April 1961; Subject - Computer Needs

1. The creation of a DD/I computer center to provide service for specialized files and to experiment in new systems of information storage and retrieval for support of DD/I offices would be a most worthwhile step forward.

2. I believe however, that such a center should be under the control and within the Office of Central Reference whose mission is to provide services of common concern.
